## DETAILED ACTION

### Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.
2. This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.
3. In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.  
Group I, claim(s) 1-9, 14-21, 24-26, 35, 37, drawn to a netlist conversion method, apparatus, and program where a resistor is inserted.

Group II, claim(s) 10-12, 22-23, 27-34, 36, and 38, drawn to a netlist conversion method, apparatus, program, a stationary through current detection program wherein no resistor insertion is used.

The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The technical range of "a sub-circuit in accordance with a threshold value and a type of the MOS transistor" of claims 10-12, 22-23, 27-34, 36, 38-40 includes, for example, a sub-circuit having "the MOS transistor" itself but no resistor inserted (i.e., simply hierarchized sub-circuit). Accordingly, a group of claims 1-9, 14-21, 24-26, 35, 37 and a group of claims 10-13, 22-23, 27-34, 36, 38-40 are not united into one invention nor so linked as to form a single general inventive concept.

4. A telephone call was made to Roger Parkhurst on June 24, 2008 to request an oral election to the above restriction requirement, but did not result in an election being made.
5. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the

Art Unit: 2825

requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

6. The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Stacy A. Whitmore whose telephone number is (571) 272-1685. The examiner can normally be reached on Monday-Thursday, alternate Friday 6:30am - 4:00 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jack Chiang can be reached on (571) 272-7483. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
